USER GUIDE
TO THE
PORTFOLIO ADDITIONAL
ESTIMATES STATEMENTS

USER GUIDE

The purpose of the Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements (PB Statements), is to inform Senators and Members of Parliament and the public of the proposed allocation of resources to Government outcomes by agencies within the portfolio. The focus of the PAES differs from the PB Statements in one important aspect. While the PAES include an Agency Resource Statement to inform Parliament of the revised estimate of the total resources available to an agency, the focus of the PAES is on explaining the changes in resourcing by outcome(s) since the Budget. As such, the PAES provides information on new measures and their impact on the financial and/or non-financial planned performance of programs supporting those outcomes.

The PAES facilitate understanding of the proposed appropriations in Appropriation Bills (No. 3 and No. 4) 2009–10. In this sense the PAES is declared by the Additional Estimates Appropriation Bills to be a ‘relevant document’ to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act 1901*.

Whereas the *Mid-Year Economic and Fiscal Outlook 2009–10* is a mid-year budget report which provides updated information to allow the assessment of the Government’s fiscal performance against its fiscal strategy, the PAES update the most recent budget appropriations for agencies within the portfolio.

STRUCTURE OF THE PORTFOLIO ADDITIONAL ESTIMATES STATEMENTS

The PAES are presented in three parts with subsections.

User guide

Provides a brief introduction explaining the purpose of the PAES.

Portfolio overview

Provides an overview of the portfolio, including a chart that outlines the outcomes for agencies in the portfolio.

Agency additional estimates statements

A statement (under the name of the agency) for each agency affected by Additional Estimates.

Section 1: Agency overview and resources	This section details the total resources available to an agency, the impact of any measures since Budget, and impact on Appropriation Bills No. 3 and No. 4.
---	--

Section 2: Revisions to outcomes and planned performance	This section details changes to Government outcomes and/or changes to the planned performance of agency programs.
---	---

Section 3: Explanatory tables and budgeted financial statements	This section contains updated explanatory tables on special account flows and staffing levels and revisions to the budgeted financial statements.
--	---

Glossary	Explains key terms relevant to the Portfolio.

PORTFOLIO OVERVIEW

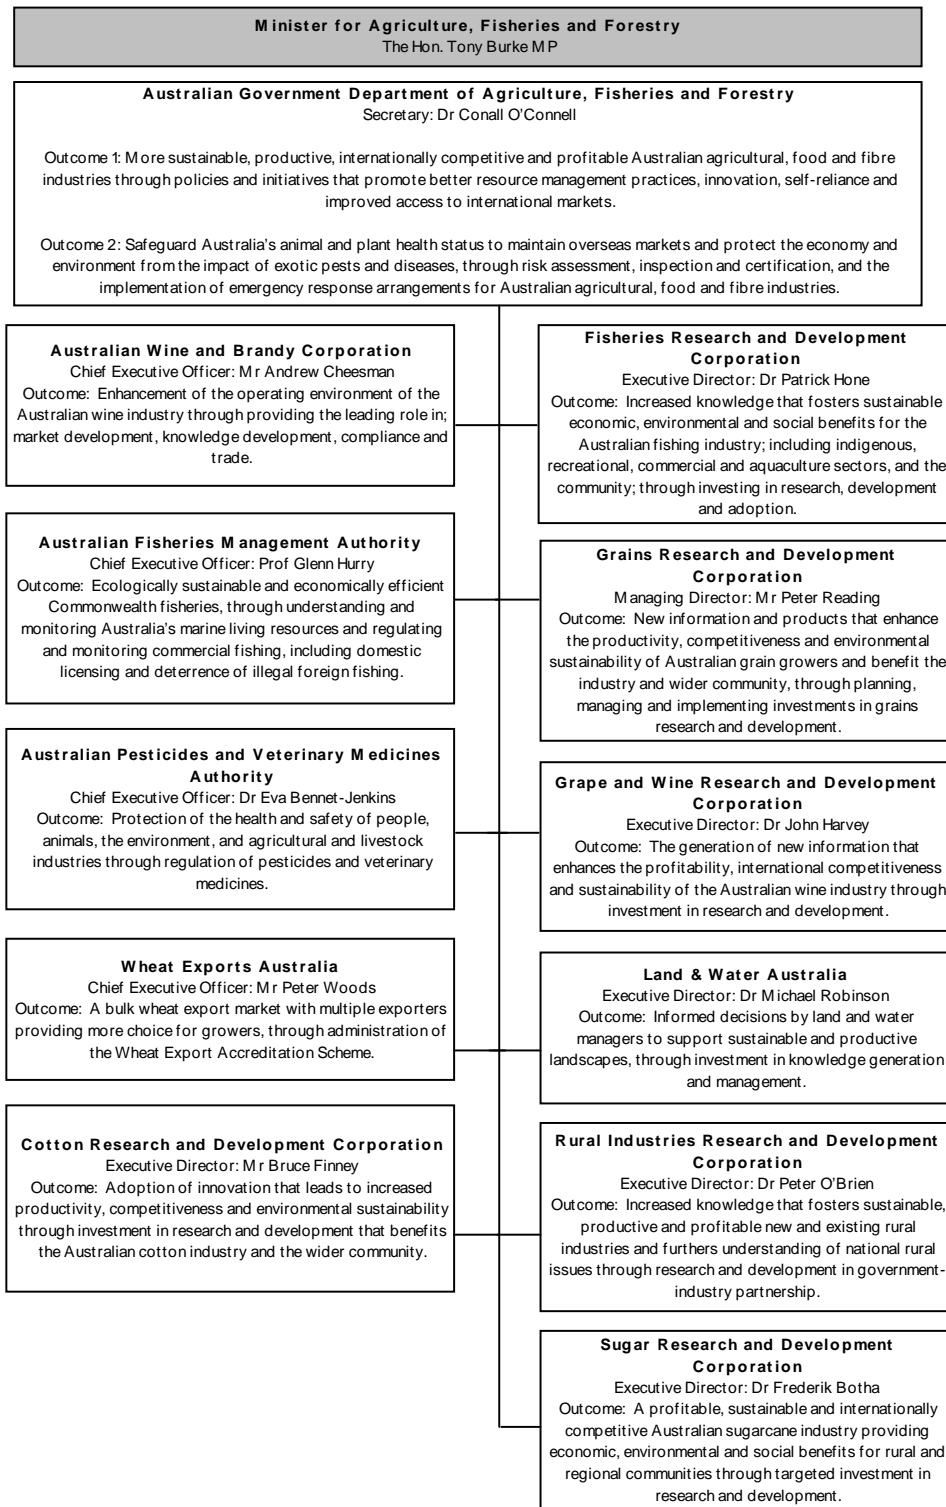

PORTFOLIO OVERVIEW

The Agriculture, Fisheries and Forestry portfolio consists of the Australian Government Department of Agriculture, Fisheries and Forestry (the department) and 11 portfolio bodies (figure 1 refers).

The portfolio roles and responsibilities have not changed since the publication of the 2009–10 Portfolio Budget Statements. However, Biosecurity Australia has been removed from the Schedule of prescribed agencies listed in the Financial Management and Accountability Regulations 1997 (FMA Regulations) and its financial resources, functions and accountabilities were transferred to the department on 1 July 2009.

The department is the only portfolio body that is receiving additional resources through the Appropriation Bills No. 3 and No. 4.

Figure 1: Agriculture, Fisheries and Forestry portfolio structure and outcomes

PORTFOLIO RESOURCES

Table 1 shows the total additional resources provided to the portfolio in the 2009–10 budget year, by agency.

Table 1: Additional portfolio resources 2009–10

	Appropriation			Movements		Total \$'000
	Bill No. 3	Bill No. 4	Transfers	Special	Receipts

DEPARTMENT OF AGRICULTURE, FISHERIES AND FORESTRY

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION

A full outline of the department's strategic direction can be found in the 2009-10 Portfolio Budget Statements. There has been no change to the department's strategic direction since the publication of the 2009-10 Portfolio Budget Statements.

1.2 AGENCY RESOURCE STATEMENT

The department is receiving \$0.742 million in additional administered funding through Appropriation Bill No. 3 and \$9.269 million in additional departmental funding through Appropriation Bill No. 4.

The additional administered funding is from a movement of funds from 2008-09 comprising of \$0.332 million for Live Trade Animal Welfare Partnership, and \$0.410 million for Recreational Fishing Industry Development Strategy Program.

The additional departmental funding relates to the production of prior year outputs associated with the Swine flu (H1N1 influenza virus) pandemic response and the Commonwealth's 40 per cent subsidy for the cost of export certification and inspection work undertaken by the Australian Quarantine and Inspection Service.

The department is also subject to a range of estimate revisions. This includes an additional \$1.503 million in administered funding through special appropriation which comprises an increase of \$12.321 million for drought assistance offset by a reduction of \$10.818 million relating to revised industry levy estimates.

The above changes are reflected in the Agency Resource Statement (Table 1.1). This table details the total resourcing for the department at Additional Estimates from all sources, including variations through Appropriation Bills No. 3 and No. 4, special appropriations and special accounts.

1. The lead agency for both the Protection against bovine spongiform encephalopathy and the Swine flu (H1N1 influenza virus) pandemic response measures is the Department of Health and Ageing. The full measure descriptions and package details appear in Mid Year Economic and Fiscal Outlook under the Health and Ageing portfolio.

2. The funding of \$39.4 million for the Reform of Australia's Export Certification Services has not been provided to the department and has not been included in its estimated expenses as it was contingent on the regulations to return export certification to full cost recovery being agreed by the Parliament.

Prepared on a Government Financial Statistics (fiscal) basis

1.4 ADDITIONAL ESTIMATES AND VARIATIONS

The following tables detail the changes to the resourcing for the department at Additional Estimates, by outcome. Table 1.3 details the Additional Estimates and variations resulting from new measures since the 2009–10 Budget in Appropriation Bills No. 3 and No. 4. Table 1.4 details Additional Estimates or variations through other factors, such as parameter adjustments.

Table 1.3: Additional estimates and variations to outcomes from measures since 2009–10 Budget

	Program impacted	2009–10 \$'000	2010–11 \$'000	2011–12 \$'000	2012–13 \$'000

Section 2: Revisions to agency resources and planned performance

2.1 RESOURCES AND PERFORMANCE INFORMATION

There has been no change to the department's outcome or performance information since the publication of the 2009–10 Portfolio Budget Statements.

OUTCOME 1

Outcome 1 Strategy

There has been no change to the department's strategies for achieving Outcome 1. The variations in funding being effected through the Additional Estimates process are to support existing strategies.

Table 2.1 Budgeted Expenses and Resources for Outcome 1

Outcome 1: More sustainable, productive, internationally competitive and profitable Australian agricultural, food and fibre industries through policies and initiatives that promote better resource management practices, innovation, self-reliance and improved access to international markets.	2008–09 Actual expenses	2009–10 Estimate as at Budget	2009–10 Revised estimated expenses

OUTCOME 2

Outcome 2 Strategy

There has been no change to the department's strategies for achieving Outcome 2. The variations in funding being effected through the Additional Estimates process are to support existing strategies.

Table 2.1 Budgeted Expenses and Resources for Outcome 2

Outcome 2: Safeguard Australia's animal and plant health status to maintain overseas markets and protect the economy and environment from the impact of exotic pests and diseases, through risk assessment, inspection and certification, and the implementation of emergency response arrangements for Australian agricultural, food and fibre industries.	2008–09 Actual expenses	2009–10 Estimate as at Budget	2009–10 Revised estimated expenses

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

The financial statements incorporate all estimates changes since publication of the 2009–10 Portfolio Budget Statements.

3.2.2 Budgeted financial statements

Departmental financial statements

The department is budgeting to break even for the 2009–10 financial year. Budgeted income for 2009–10 has increased by \$64.133 million since the 2009–10 Portfolio Budget Statements. This is mainly due to increased estimates in revenue from the sale of goods and services of \$40.622 million and increased appropriations of \$20.778 million. The increase in appropriation revenue is primarily due to the transfer of \$21.440 million in appropriation funding from Biosecurity Australia. The increase in income is offset by increases in expenses.

There are also matching increases in cash flows in the cash flow statement across the relevant revenue and expense lines.

The departmental balance sheet has been adjusted to reflect the final 2008–09 position as published in the department's annual report.

Table 3.2.1: Budgeted departmental Comprehensive Income Statement (Showing Net Cost of Services) for the period ended 30 June

Schedule of administered activity

The department is receiving an additional \$2.245 million in administered funding in 2009–10. This increase is reflected in the increase in expenses in the schedule of budgeted income and expenses administered on behalf of government. There are also matching increases in cash flows in the cash flow statement across the relevant expense lines.

The financial statements have also been adjusted to reflect the final 2008–09 position as published in the department’s annual report.

Table 3.2.7: Schedule of budgeted income and expenses administered on behalf of government (for the period ended 30 June)

Notes to the financial statements

The departmental financial statements include financial information for all operations controlled by the department, including the Australian Quarantine and Inspection Service and the National Residue Survey. All transactions between these operations have been eliminated in the financial statements.

The statements are prepared in accordance with accounting policies published in the department's annual report.

PORTFOLIO GLOSSARY

Accrual accounting	System of accounting where items are brought to account and included in the financial statements as they are earned or incurred, rather than as they are received or paid.
Accumulated depreciation	The aggregate depreciation recorded for a particular depreciating asset.
Administered	Revenues, expenses, assets or liabilities managed by agencies on behalf of the Commonwealth. Agencies do not control administered items. Administered expenses include grants, subsidies and benefits. In many cases, administered expenses fund the delivery of third party outputs.
Additional estimates	Where amounts appropriated at Budget time are insufficient, Parliament may appropriate more funds to portfolios through the Additional Estimates Acts.
Appropriation	An authorisation by Parliament to spend moneys from the Consolidated Revenue Fund for a particular purpose.
Annual Appropriation	Two appropriation Bills are introduced into Parliament in May and comprise the Budget for the financial year beginning 1 July. Further Bills are introduced later in the financial year as part of the additional estimates. Parliamentary departments have their own appropriations.
Capital expenditure	Expenditure by an agency on capital projects, for example purchasing a building.
Consolidated Revenue Fund	Section 81 of the Constitution stipulates that all revenue raised or money received by the Commonwealth forms the one consolidated revenue fund (CRF).
CRC	Cooperative Research Centre.
Departmental	Revenue, expenses, assets and liabilities that are controlled by the agency in providing its outputs. Departmental items would generally include computers, plant and equipment assets used by agencies in providing goods and services and most employee expenses, supplier costs and other administrative expenses incurred.

Portfolio Glossary

Depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.
Effectiveness indicators	Measures the joint or independent contribution of outputs and administered items to the achievement of their specified outcome.
Efficiency indicators	Measures the adequacy of an agency's management of its outputs (and where applicable, administered items). Includes price, quality and quantity indicators. The interrelationship between the three efficiency indicators of any one output should be considered when judging efficiency.
Equity or net assets	Residual interest in the assets of an entity after deduction of its liabilities.
Expense	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.
Fair value	Valuation methodology: the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. The fair value can be affected by the conditions of the sale, market conditions and the intentions of the asset holder.
Intermediate outcomes	More specific medium-term impacts (for example, trend data, targets or milestones) below the level of the planned outcomes specified in the Budget. A combination of several intermediate outcomes can at times be considered as a proxy for determining the achievement of outcomes or progress towards outcomes. (<i>see outcomes</i>)
Items	The level at which funds are appropriated from the consolidated revenue.
Operating result	Equals revenue less expense.

Outcomes	The government's objectives in each portfolio area. Outcomes are desired results, impacts or consequences for the Australian community as influenced by the actions of the Australian Government. Actual outcomes are assessments of the end-results or impacts actually achieved.
Outputs	The goods and services produced by agencies on behalf of government for external organisations or individuals. Outputs also include goods and services for other areas of government external to the agency.
Price	One of the three key efficiency indicators. The amount the government or the community pays for the delivery of agreed outputs.
Programs	A logical aggregation of agency items for the provision of adequate information for key performance monitoring and measurement of deliverables.
Quality	One of the three key efficiency indicators. Relates to the characteristics by which customers or stakeholders judge an organisation, product or service. Assessment of quality involves use of information gathered from interested parties to identify differences between user's expectations and experiences.
Quantity	One of the three key efficiency indicators. Examples include: the size of an output; count or volume measures; how many or how much.
R&D	Research and Development.
RDC	Research and Development Corporation.
Revenue	Total value of resources earned or received to cover the production of goods and services.

Portfolio Glossary

Special Account	<p>Balances existing within the Consolidated Revenue Fund (CRF) that are supported by standing appropriations (<i>Financial Management and Accountability (FMA) Act 1997</i>, subsection 20 and 21). Special accounts allow money in the CRF to be acknowledged as set-aside (hypothecated) for a particular purpose. Amounts credited to a Special Account may only be spent for the purposes of the Special Account. Special Accounts can only be established by a written determination of the Finance Minister (section 20 FMA Act) or through an Act of Parliament (referred to in section 21 of the FMA Act).</p>
Special Appropriations (including Standing Appropriations)	<p>An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations the authority to withdraw funds from the Consolidated Revenue Fund does not generally cease at the end of the financial year.</p> <p>Standing appropriations are a sub-category consisting of ongoing special appropriations – the amount appropriated will depend on circumstances specified in the legislation.</p>
