

Dear Sir/Madam,

Thank you for the opportunity to comment on the Discussion Paper of the Review of National Marine Pest Biosecurity, please find the coversheet attached.

My Comments & Questions are;

- I am part of the independent IMS Inspectors list registered with Fisheries WA & we seem to be disconnected with the rest of Australia regarding Marine Biosecurity.
- How do AQIS, DAFF & DoA all fit in as regards to National Marine Biosecurity Regulations when in WA we follow State Fisheries Guidelines & Regulations ?
- Apologies as I was overseas working recently & missed the DoA workshops in Perth which was probably the forum for my question.

Kind Regards,

Kim Grey
