

19th September 2018

Mr S McCutcheon

Chair

Technical Advisory Committee

Australian Standards for the Export of Livestock

C/- TAC Secretariat

Dear Sir,

ASEL Review

Harmony Agriculture and Food Company is a vertically integrated livestock production, grazing, feedlotting, processing and export business. Harmony operates two livestock export businesses, Phoenix Exports Pty Ltd and Breedex Australia Pty Ltd with a management team with considerable experience in the livestock export sector that dates back over 40 years.

Harmony has been involved in the development of the Australian Livestock Exporters Council (ALEC) submission to the Review of the Australian Standards for the Export of Livestock and fully supports the ALEC submission and the recommendations made therein.

The ALEC submission is based on relevant research and data which, wherever possible, supports the recommendations made by ALEC on behalf of its members.

In the limited time available ALEC, with the support of its members, has invested significantly in producing an objective, fact-based submission which we commend to the committee.

Yours faithfully,

Stephen Meerwald
Managing Director
