Re: *A Report on the Progress with Implementation of the Regional Forest Agreement for the South West Forests of WA Period3: 2009 to 2014*

Attention: WA Regional Forest Agreement, Project Officer, Forest and Ecosystem Management,  
Department of Parks & Wildlife.

On behalf of the Preston Environment Group, please accept our submission: DVD 'Costing Us the Earth'

'Costing Us the Earth' is an 11 min documentary/submission providing information as to why the RFA in WA has failed to deliver on its promise that WA's native forest would be managed sustainably including the RFA's failure to take into consideration climate change and its effect on the jarrah forest ecosystem of the south west of WA.

Regards

Sallie Coulson
