Specimen Identification

Please provide details at question 24 (next page) of the specimens you are applying for. The following notes are provided to assist with the completion of question 24.

1) Source Codes

	Wild	W
	Captive bred	C
	Captive born	F
	Artificially propagated	A
	Ranched	R
	Aquacultured	AQ
	Other (please explain)	O
	Unknown (must be justified)	U

2) Name of Commercial Wildlife Program

Permits for commercial **exports** can usually only be issued for specimens derived from an approved wildlife program (such as a Captive Breeding Program, Artificial Propagation Program, Aquaculture Program, Wildlife Trade Operation or Wildlife Trade Management Plan).

Permits for commercial **imports** of species listed under CITES Appendix II may be issued for wild taken or ranched specimens unless it is a "declared specimen". Declared specimens require an approved Commercial Import Program. The Declared specimens list is available at <http://www.environment.gov.au/biodiversity/trade-use/sources/declared-specimens.html>

Permits for specimens derived from an animal bred in captivity or a plant that was artificially propagated may also be issued.

In this form, please provide the specific name of the program from which your specimens were derived; for example, the NSW Kangaroo Management Program, Insect Harvesting and Export Program (Mr X), TAS Tree Fern Management Program.

3) Place of origin

For Australian native species, or a non-native species sourced in Australia, name the State or Territory where taken or grown. For non-native species sourced outside Australia, name the country from which the specimens were originally taken.

4) Year in which the specimens were taken or bred

Show the year when the animals/plants were taken from the wild; or the year that the specimens were captive bred or artificially propagated.

5) Reference Publication

Only complete for species that are not commonly in trade and if you have not applied for a permit for it before. Refer to a publication where the species is named and described.

24. Specimen details to be included on permit. Refer to notes on previous page before entering details.
If you have more than 3 different specimens, you will need to photocopy the page before entering the details.

Dear s47F

How are you? I hope you are well. I would be grateful if you would review the two attached copies of Solomons export permits for corals, and advise if these permits were issued by your office, and that they have not been altered in any way? These shipments were imported into Australia last year but, whilst checking records for annual reporting purposes, we have found that we have never sighted the original permits – the imports were acquitted on photocopies as the originals were ‘lost’.

I look forward to hearing from you.

Best wishes

Attention s22

Hello s22

The revised CITES for my application WT2013-000111. I was so keen to see the quantities in order I did not notice the errors with the original CITES sent, Sorry. If any problems please give me a call on 0438 366028. Thank you for your help. Kind Regards s47F

I applied for a CITES permit to import but needed the original CITES certificate from the exporting country to be issued so it could be processed with the application.

The original application also needed an ABN number for Shellmac Distributors. There is also a slight alteration to the quantities of one of the items. Your CITES reference for the application is;

WT2013 / 000111

With slight delays in shipping the ETA is late July not 29th June as listed.

I have decided to fax through the complete CITES application again covering your WF2013 / 000111 with alterations for your information. If you have any concerns please phone me direct on 0438 366028.

Kind Regards

Message Fisheries Letter.jpg Cites.jpg Clamshell license.jpg coral license 2014.pdf

Hello s22 to follow my phone call with you last Friday I have received the documents from the Solomon Island covering my proposed shipment of Coral and Clams from that country. I am aware of the self imposed ban in place for Clam shells by the Solomon Fisheries / Environment. It is my understanding that when the restriction was put in place a certain number of shells were identified as suitable for export and export licenses issued to cover these shells only. A copy of the Fisheries licence and CITES plus a letter of confirmation is attached confirming this. When I talked to you last week you suggested I send the information on to you for review prior to completing my CITES applicator s47G(1)(a)

Date: 25/11/14

Dear Sir/Madam,

TO WHOM IT MAY CONCERN: DEPARTMENT OF ENVIRONMENT - AUSTRALIA

This letter serves to officially inform your organization that the Ministry of Fisheries and Marine Resources, through the Director of Fisheries, has given its full support and approval to **s47G(1)(a)** a local coral and clam exporter, who has been awarded an export licence FPL-30/2014 to export their corals/giant consignment. Their Licence is currently valid until 31st December 2014.

Furthermore, they have been granted a CITES permit by the Ministry of Environment, Climate Change, Disaster Management and Meteorology (MECCDM), who have met and fulfilled CITES requirements as well.

One container containing dead corals of several species, with giant clams is scheduled to be exported to Australia.

Grateful if any relevant assistance can be rendered and availed for the smooth delivery of their consignment to their designated buyer in Australia.

Your understanding will be highly appreciated.

Yours Sincerely,

s47F

Case Note Body

The applicant has provided an overseas export permit. This permit lists Gorgonia ventalina as a CITES appendix II species however the entire Order that this species sits in is not listed under CITES. Therefore I have added an additional condition to state that this species does not require a CITES import permit.

A number of coral species are allowed to be listed at Genus level on permits. Turbinaria is one of these Genera.

The applicant has not acquitted the one permit they have had (in PAWS). s47G(1)(a)

Declaration and submission

Have you been convicted of any of the following in the past 10 years or are you currently subject to proceedings for any of the following:

- a) offences under the *Environmental Protection and Biodiversity Conservation Act 1999* or *Environmental Protection and Biodiversity Conservation Regulations 2000*;
- b) offences under any law of the Commonwealth about the protection, conservation or management of native species or ecological communities;
- c) offences under section 6 of the *Crimes Act 1914*, or section 11.1, 11.4 or 11.5 of the *Criminal Code*, in relation to an offence referred to in paragraph (a) or (b);
- d) offences under a law of a state or territory about the protection, conservation or management of native species or ecological communities; or
- e) offences in relation to a law referred to in paragraph (d), under a provision of a state or territory that is equivalent to section 6 of the *Crimes Act 1914*, or to section 11.1, 11.4 or 11.5 of the *Criminal Code*. *

s47G(1)(a)

Important Notes

- Please obtain legal advice if you are unsure how to answer any of the questions above
- Offences may include attempt to commit an offence, inchoate to commit an offence, conspiracy to commit an

offence (section 11.1, 11.4 and 11.5 of the *Criminal Code* respectively) and having been an accessory to an offence (section 6 of the *Crimes Act 1914*).

- Under 17.07(2) of the *Environmental Protection and Biodiversity Conservation Regulations 2000*, a person is taken to have been convicted of an offence if, in the 10 years before the application is made, the person:
 - (a) has been charged with, and found guilty of, the offence but discharged without conviction; or
 - (b) has not been found guilty of the offence, but a court has taken the offence into account in passing sentence on the person for another offence.
- Part VIIC of the *Crimes Act 1914* includes provisions that, in certain circumstances, relieve persons from the requirement to disclose spent convictions and require persons aware of such convictions to disregard them.

Before submitting

If you have any questions regarding your application or proposed shipment, please contact w_d_fetrade@environment.gov.au or (02) 6274 1900.

Declaration

I declare that, to the best of my knowledge, the information provided by me in this application is true and correct in every detail. *

It is a serious offence under Chapter 7 of the *Criminal Code* to provide false or misleading information and severe penalties apply.

Declaration and submission

Have you been convicted of any of the following in the past 10 years or are you currently subject to proceedings for any of the following:

- a) offences under the *Environmental Protection and Biodiversity Conservation Act 1999* or *Environmental Protection and Biodiversity Conservation Regulations 2000*;
- b) offences under any law of the Commonwealth about the protection, conservation or management of native species or ecological communities;
- c) offences under section 6 of the *Crimes Act 1914*, or section 11.1, 11.4 or 11.5 of the *Criminal Code*, in relation to an offence referred to in paragraph (a) or (b);
- d) offences under a law of a state or territory about the protection, conservation or management of native species or ecological communities; or
- e) offences in relation to a law referred to in paragraph (d), under a provision of a state or territory that is equivalent to section 6 of the *Crimes Act 1914*, or to section 11.1, 11.4 or 11.5 of the *Criminal Code*. *

s47G(1)(a)

Important Notes

- Please obtain legal advice if you are unsure how to answer any of the questions above
- Offences may include attempt to commit an offence, incitement to commit an offence, conspiracy to commit an offence (sections 11.1, 11.4 and 11.5 of the *Criminal Code* respectively) and having been an accessory to an offence (section 6 of the *Crimes Act 1914*).
- Under 17.07(2) of the *Environmental Protection and Biodiversity Conservation Regulations 2000*, a person is taken to have been convicted of an offence if, in the 10 years before the application is made, the person:
 - (a) has been charged with, and found guilty of, the offence but discharged without conviction; or
 - (b) has not been found guilty of the offence, but a court has taken the offence into account in passing sentence on the person for another offence.
- Part VIIC of the *Crimes Act 1914* includes provisions that, in certain circumstances, relieve persons from the requirement to disclose spent convictions and require persons aware of such convictions to disregard them.

Before submitting

If you have any questions regarding your application or proposed shipment, please contact w_d_fetrade@environment.gov.au or (02) 6274 1900.

Declaration

I declare that, to the best of my knowledge, the information provided by me in this application is true and correct in every detail. *

It is a serious offence under Chapter 7 of the *Criminal Code* to provide false or misleading information and severe penalties apply.

Declaration and submission

Have you been convicted of any of the following in the past 10 years or are you currently subject to proceedings for any of the following:

- a) offences under the *Environmental Protection and Biodiversity Conservation Act 1999* or *Environmental Protection and Biodiversity Conservation Regulations 2000*;
- b) offences under any law of the Commonwealth about the protection, conservation or management of native species or ecological communities;
- c) offences under section 6 of the *Crimes Act 1914*, or section 11.1, 11.4 or 11.5 of the *Criminal Code*, in relation to an offence referred to in paragraph (a) or (b);
- d) offences under a law of a state or territory about the protection, conservation or management of native species or ecological communities; or
- e) offences in relation to a law referred to in paragraph (d), under a provision of a state or territory that is equivalent to section 6 of the *Crimes Act 1914*, or to section 11.1, 11.4 or 11.5 of the *Criminal Code*. *

s47G(1)(a)

Important Notes

- Please obtain legal advice if you are unsure how to answer any of the questions above
- Offences may include attempt to commit an offence, incitement to commit an offence, conspiracy to commit an offence (section 11.1, 11.4 and 11.5 of the *Criminal Code* respectively) and having been an accessory to an offence (section 6 of the *Crimes Act 1914*).
- Under 17.07(2) of the *Environmental Protection and Biodiversity Conservation Regulations 2000*, a person is taken to have been convicted of an offence if, in the 10 years before the application is made, the person:
 - (a) has been charged with, and found guilty of, the offence but discharged without conviction; or
 - (b) has not been found guilty of the offence, but a court has taken the offence into account in passing sentence on the person for another offence.
- Part VIIC of the *Crimes Act 1914* includes provisions that, in certain circumstances, relieve persons from the requirement to disclose spent convictions and require persons aware of such convictions to disregard them.

Before submitting

If you have any questions regarding your application or proposed shipment, please contact w_d_fetrade@environment.gov.au or (02) 6274 1900.

Declaration

I declare that, to the best of my knowledge, the information provided by me in this application is true and correct in every detail. *

It is a serious offence under Chapter 7 of the *Criminal Code* to provide false or misleading information and severe penalties apply.
