## ***Agricultural export regulatory services***

# **Fees and charges from 1 July 2024**

### **Prices change**

The [Australian Government Cost Recovery Policy](#) requires that regulators recover some or all of the efficient costs of the effort required to deliver their services, unless the government has decided to fund that activity.

The modelling of fees and charges in 2021–22 endeavoured to forecast CPI growth in costs and increased demand for regulatory activities for exports arrangements. Stepped increases were planned to return export cost recovery arrangements back to full cost recovery by 2023–24. Prices were legislated for these stepped increases from 2021–22 to 2024–25.

Regulatory pricing for 2024–25 will continue at the rates set out in legislation to give certainty to industry and maintain the stepped increase in prices that has previously been consulted on.

More information is available within each of the [2024–25 Agricultural Exports Cost Recovery Implementation Statements](#) (CRIS).

For information about the application of regulatory fees and charges, email [costrecovery@aff.gov.au](mailto:costrecovery@aff.gov.au).

### **Legal basis for changes**

The new charging prices were implemented in accordance with the relevant Rules and Regulations. Details are in the following:

- [Export control \(Fees and Payments\) Rules 2021](#)
  - Export Control (Fees and Payments) Amendment Rules 2021
  - Export Control (Fees and Payments) Amendments 2 Rules 2021
- [Export Charges \(Imposition – General\) Regulations 2021](#)
  - Export Charges (Imposition – General) Amendment Regulations 2021
- [Export Charges \(Imposition – Customs\) Regulations 2021](#)
  - Export charges (Imposition – Customs) Amendments Regulations 2021

## Industry consultation

The department has been formally engaging with industry on these charging arrangements since 2019.

Price increases effective from 1 July 2024 align with the prices negotiated with industry in 2021 prior to setting prices in legislation. During the consultation process the department released 7 draft export CRISs for public consultation. The department invited stakeholder feedback through a submissions process and meetings with key industry bodies.

A similar stakeholder consultation process was employed during 2022–23 when the department conducted a review of the arrangements cost base and revenue to ensure already legislated prices continued to align.

The department is committed to transparent, meaningful consultation and careful consideration of stakeholder feedback on an ongoing basis.

## Commencement of new prices

On 1 July 2024 prices will increase in accordance with the 2024–25 CRIS and legislation.

## Overview of the new price points as of 1 July 2024

All 2024–25 fees and charges align with the legislated prices. An overview of the fees and charges effective 1 July 2024 are provided in the following appendices (by arrangement):
