

DEPARTMENT OF AGRICULTURE, WATER AND THE ENVIRONMENT

To: Kim Farrant, Acting Assistant Secretary, Environment Assessments Queensland and Sea Dumping Branch (for decision)

Approval Decision Brief (recommendation report) – Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539)

Timing: 16 November 2020 - Statutory timeframe.

Recommendation/s:

1. Consider information in this brief, the proposed approval briefing package, including the recommendation report, the final Preliminary Documentation and attachments, at Attachment A.

Considered / please discuss

2. Consider the responses to the invitation for comment on the proposed decision at Attachment B.

Considered / please discuss

3. Approve, for each controlling provision, the action as summarised in the table below.

Approved / Not approved

4. Agree to attach the conditions of approval as set out in Attachment C.

Agreed / Not agreed

5. Sign the notice of your decision at Attachment C.

Signed / Not signed

6. If you agree to 3 and 4, accept the reasoning in the Departmental briefing package as the reasons for your decision.

Accepted / Please discuss

7. Sign the letters at Attachment D advising the person proposing to take the action, and other relevant parties, of your decision.

Signed / Not signed

Summary of recommendations on each controlling provision:		
Controlling Provisions for the action	Recommendation	
	Approve	Refuse to Approve
Listed threatened species and communities (ss 18, 18A)	Approve	
<p>Kim Farrant Date: Acting Assistant Secretary Environment Assessments Queensland and Sea Dumping Branch</p> <p>Comments:</p>		

Key Points:

1. HB Doncaster Pty Ltd (the proponent) proposes to construct a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland.
2. If approved, the proposed action will result in the loss of 56.2 ha of habitat critical to the survival of the listed vulnerable Koala (*Phascolarctos cinereus – combined populations of Qld, NSW and the ACT*) and the listed vulnerable Grey-headed Flying-fox (*Pteropus poliocephalus*).

Background

3. On 8 October 2020, as recommended in the proposed approval decision brief (Attachment A), a delegate of the Minister proposed to approve the proposed action under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act).
4. Under section 130 and 133 of the EPBC Act, you are now required to decide whether to approve the proposed action, and if you decide to approve it, what conditions you will attach to the approval under section 134 of the EPBC Act.
5. Unless otherwise stated in this brief, the matters for consideration and factors to be taken into account for your decision remain as set out in the proposed approval decision brief (Attachment A).

Consultation:

6. On 8 October 2020, as recommended in the proposed approval decision brief (Attachment A), a delegate of the Minister wrote to the following persons seeking comments on the proposed decision:

14. On 29 October 2020, the Department made the requested changes, and provided the proponent with a revised copy of the decision notice. On the same day, the proponent formally agreed to and accepted all changes.

State and Commonwealth Minister comments

15. On 22 October 2020, the Queensland Department of Environment and Science (DES) responded with comments on the proposed decision notice (Attachment B4). The comments were prepared by the Koala Assessment and Compliance Team (KACT).

16. s. 47B(a)

17. s. 47C(1)

Internal consultation

18. The Department's Environmental Audit and Post Approvals sections were consulted on the proposed conditions. Due to the minor nature of the proposed changes to conditions, further consultation on the final conditions was not required.
19. The Species Information and Policy section have also been consulted on relevant recovery plans, threat abatement plans, and conservation advices. s. 47C(1)

- s. 47C(1)

Conclusion:

22. The Department recommends that the approval has effect until 31 December 2045 to allow a sufficient period to effectively implement the proposed approval conditions and for the proponent to ensure the required ecological outcomes are achieved.

23. The Department considers that impacts to matters of national environmental significance will not be unacceptable provided the action is undertaken in accordance with the recommended approval conditions at Attachment C.
24. The Department considers the conditions of approval represent a convenient method of achieving strong environmental outcomes and managing key risks, and recommends that you approve the proposed action subject to the conditions at Attachment C.
25. Letters advising the proponent and Queensland Department of Environment and Science are provided at Attachment D for your signature.
26. The final decision will be made publicly available on the Department's website.

Document 1A

Proposed Approval Decision Brief (recommendation report) – Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539)

Timing: The final decision is due on 26 October 2020.

Recommendations:

1. Consider the recommendation report at Attachment A.

Considered / please discuss

2. Consider the finalised preliminary documentation at Attachment C and other attachments to this brief.

Considered / please discuss

3. Agree that the recommended decision on page 1 of the recommendation report (Attachment A), and summarised in the table below, reflects your proposed decision.

Agreed / Not agreed

4. Agree, under section 130(1A) of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act), to extend the timeframe for making a decision on whether or not to approve the proposed action.

Agreed / Not agreed

5. Agree to extend the decision date by 5 business days to 2 November 2020 under section 130(1A) of the EPBC Act.

Agreed / Not agreed

6. Sign the letters at Attachment D to consult the proponent and relevant State Minister on your proposed decision, and, in accordance with s130(4) of the EPBC Act, to inform the proponent of your decision to extend the timeframe.

Signed / Not signed

7. Sign the Notice of extension to timeframe at Attachment H, which will be published.

Signed / Not signed

8. Agree to not publish the proposed decision at Attachment B on the internet for public comment.

Agreed / Not agreed

Summary of recommendations on each controlling provision:		
Controlling Provisions for the action	Recommendation	
	Approve	Refuse to Approve
Listed threatened species and communities (ss 18, 18A)	Approved	
<p>s. 47F(1)</p> <p>Richard Miles Date: 8 October 2020 Acting Assistant Secretary Assessments Queensland and Sea Dumping Branch</p> <p>Comments:</p>		

Key Points:

1. HB Doncaster Pty Ltd (the person proposing taking the action and also the proponent) propose to construct a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland.
2. The proposed site is approximately 56.2 hectares (ha) in size. The land tenure is freehold and is located in the Ripley Valley Priority Development Area within the Ipswich City Council Local Government Area. The proposed site has a 'future urban' land use zoning.
3. The proposed action will consist of:
 - a. a 52.88 ha development footprint which will be cleared and developed for approximately 583 residential dwellings with supporting infrastructure including a neighbourhood centre and community facilities centre, roads and greenspace; and
 - b. an area of approximately 3.312 ha in size being retained and rehabilitated, and to provide open space amenity.
4. s. 47C(1)
5. s. 47C(1)

6. s. 47C(1)

Background:

7. On 24 December 2019, a delegate of the Minister determined the proposed action to be a controlled action due to likely significant impacts on listed threatened species and communities (section 18 & section 18A). On the same day it was determined that the proposed action would be assessed by preliminary documentation.
8. In accordance with section 95A of the *Environmental Protection and Biodiversity Conservation Act 1999 (Cth)* (EPBC Act), the proponent published the draft preliminary documentation for public comment from 12 August 2020 to 24 August 2020 for a period of 10 business days. No public comments were received.
9. The stage 3 and 4 cost recovery payments were received on 12 August 2020.
10. On 28 August 2020, the proponent submitted the final preliminary documentation (Attachment C) to the Department, at which point the 40 business-day timeframe to make an assessment decision commenced. The statutory timeframe to make a final assessment decision expires on 26 October 2020.
11. On 31 August 2020, the proponent published a notice advertising the preliminary documentation for information in accordance with subsection 95B(2) of the EPBC Act, for a period of 10 business days.

s. 47C(1)

Public submissions on assessment documents

Number For Against Not specified

16. The preliminary documentation was published for a period of 10 business days from 12 August 2020 to 24 August 2020. No public comments were received.

Consultation:

17. Before deciding whether or not to approve the proposed action, you are required under Sections 131 and 131AA of the EPBC Act to consult with the person proposing to take the action and any other minister you, as the delegate of the Minister, believe has administrative responsibilities relating to the action. The Department recommends you consult with:

- s. 47F(1) , Group Director, HB Doncaster Pty Ltd; and
- Mr Chris Loveday, Director, Impact Assessment and Operational Support, Department of Environment and Science.

Letters are at Attachment D for your signature.

18. The Species Information and Policy Section has been consulted on relevant recovery plans, threat abatement plans and conservation advices (Attachment F1). s. 47C(1)

19. The Office of Compliance and Post Approvals Section were also consulted on the proposed conditions of approval and the environmental history of the proponent (Attachment F2). These comments have been considered and included in the proposed conditions of approval.

Extension to timeframe

20. The Department recommends that the relevant period in which the Minister (or delegate) must make a decision about whether or not to approve the proposed action be extended by 5 business days to 2 November 2020 s. 47C(1)

21. Section 130(1A) of the EPBC Act allows the Minister or delegate to specify and longer period for making a decision, in which case the Minister or the Delegate is required under s130(4) to give a copy of the notification to the person proposing to take the action and publish the notice. s. 47C(1)

22. If you agree with the recommendation to extend the decision timeframe under section 130(1A), please sign and date the Notice at Attachment H, which will be published.

DOCKLANDS VIC 3008

Dear s. 47F(1)

**Invitation to comment on proposed approval decision
Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539)**

I am writing to you in relation to your proposal to develop a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland (Proposed Action). The Proposed Action was referred and assessed under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) for its impacts on listed threatened species and communities (sections 18 & 18A).

I am proposing to approve the Proposed Action subject to conditions.

My proposed decision of approval is attached. In accordance with the EPBC Act, I invite you to provide comments on my proposed decision of approval, including the conditions which I propose to attach, within 10 business days of the date of this letter.

Furthermore, under section 130(1A) of the EPBC Act, the Minister may specify a longer period for the purposes of making a decision on whether or not to approve a controlled action. As a delegate of the Minister, I am writing to also inform you that the timing for a decision on approval for the above listed action has been extended by 5 business days to 2 November 2020.

Comments on the proposed decision or any questions about the assessment process may be directed to the project manager, s. 22(1)(a)(ii) , by email to s. 22(1)(a)(ii) @environment.gov.au, or telephone s. 22(1)(a)(ii) and quote the EPBC reference number shown at the beginning of this letter.

Yours sincerely

BRISBANE QLD 4001

Dear Mr Loveday

**Invitation to comment on proposed approval decision
Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539).**

I am writing to you in relation to your proposal to develop a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland (Proposed Action). The Proposed Action was referred and assessed under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) for its impacts on listed threatened species and communities (sections 18 & 18A).

I am proposing to approve this proposal. My proposed decision is attached.

I understand that you may have administrative responsibilities relating to the action. I invite you to provide comments on my proposed decision within 10 business days of the date of this letter, including on any matters of economic or social concern that should be considered consistent with the principles of ecologically sustainable development.

Comments on the proposed decision or any questions about the assessment process may be directed to the project manager, s. 22(1)(a)(ii) , by email to s. 22(1)(a)(ii) @environment.gov.au, or telephone s. 22(1)(a)(ii) and quote the EPBC reference number shown at the beginning of this letter.

Yours sincerely

Details

Matters of National Environmental Significance

Wetlands of International Importance (Ramsar Wetlands)

[\[Resource Information \]](#)

Name	Proximity
Moreton bay	40 - 50km upstream from Ramsar site

Threatened Ecological Communities

[\[Resource Information \]](#)

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Status of Vulnerable, Disallowed and Ineligible are not MNES under the EPBC Act.

Name	Status	Type of Presence
Coastal Swamp Oak (Casuarina glauca) Forest of New South Wales and South East Queensland ecological community	Endangered	Community may occur within area
Lowland Rainforest of Subtropical Australia	Critically Endangered	Community may occur within area
Poplar Box Grassy Woodland on Alluvial Plains	Endangered	Community may occur within area
Swamp Tea-tree (Melaleuca irbyana) Forest of South-east Queensland	Critically Endangered	Community likely to occur within area
White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland	Critically Endangered	Community may occur within area

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

For species where the distributions are well known, maps are digitised from sources such as recovery plans and detailed habitat studies. Where appropriate, core breeding, foraging and roosting areas are indicated under 'type of presence'. For species whose distributions are less well known, point locations are collated from government wildlife authorities, museums, and non-government organisations; bioclimatic distribution models are generated and these validated by experts. In some cases, the distribution maps are based solely on expert knowledge.

Threatened, migratory and marine species distributions have been derived through a variety of methods. Where distributions are well known and if time permits, maps are derived using either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc) together with point locations and described habitat; or environmental modelling (MAXENT or BIOCLIM habitat modelling) using point locations and environmental data layers.

Where very little information is available for species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc). In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More reliable distribution mapping methods are used to update these distributions as time permits.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

Subject: RE: Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) Request for advice on new listings, advices and plans [SEC=OFFICIAL]

Hi Species Information and Policy Section,

The proposed decision for Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) is likely to be signed by the delegate soon.

I would be grateful if you could please advise on whether or not there are any new, revised or imminent conservation advices, recovery plans or threat abatement plans that may be relevant to this project.

I have reviewed the statutory documents report below, and can confirm the relevant statutory documents have been correctly identified for the listed threatened species and ecological communities.

The last check of SPRAT for new or revised conservation advices, recovery plans or threat abatement plans was done 23 September 2020.

Thanks

Subject: Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) Request for advice on new listings, advices and plans [SEC=OFFICIAL]

Hi ^{s. 22(1)(a)(ii)},

The proposed decision for Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) is likely to be signed by the delegate soon.

The project is located at Ripley, Queensland. Could you please provide advice as to whether or not there are any new, revised or imminent conservation advices, recovery plans or threat abatement plans that may be relevant to this project?

I've included below a list of the species and ecological communities which are likely to be significantly impacted by the project and the CAs, RPs and TAPs that have been considered in the decision.

The last check of SPRAT for new or revised conservation advices, recovery plans or threat abatement plans was done today (22 September 2020).

Let me know if you need anything else and if possible can you please let me know by the end of the week (25 September 2020)? I apologise for the short notice.

Thanks,

^{s. 22(1)(a)}

APPROVAL

Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539)

This decision is made under sections 130(1) and 133(1) of the *Environment Protection and Biodiversity Conservation Act 1999 (Cth)*. Note that section 134(1A) of the **EPBC Act** applies to this approval, which provides in general terms that if the approval holder authorises another person to undertake any part of the action, the approval holder must take all reasonable steps to ensure that the other person is informed of any conditions attached to this approval, and that the other person complies with any such condition.

Details

Person to whom the approval is granted (approval holder)	HB Doncaster Pty Ltd
ACN or ABN of approval holder	ABN: 15 164 200 533
Action	The development of a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland [See EPBC Act referral 2019/8539]

Proposed Approval decision

My decision on whether or not to approve the taking of the action for the purposes of the controlling provision for the action is as follows.

Controlling Provisions

Listed Threatened Species and Communities	
Section 18	Approve
Section 18A	Approve

Period for which the approval has effect

This approval has effect until 31 December 2045.

Decision-maker

<i>Name and position</i>	Kim Farrant Assistant Secretary of Environment Assessments Queensland and Sea Dumping Branch Department of Agriculture, Water and the Environment
---------------------------------	---

Signature

Date of decision

Conditions of approval

This approval is subject to the conditions under the EPBC Act as set out in ANNEXURE A.

ANNEXURE A – CONDITIONS OF APPROVAL

Part A – Conditions specific to the action

1. To minimise impacts to the **Koala** and **Grey-headed Flying-fox**, the approval holder must:
 - a. not **clear** more than 56.20 ha of **Koala habitat** and **Grey-headed Flying-fox habitat** within the **development area**; and,
 - b. not clear outside the **development area**.
2. To minimise the risk of injury or death to **Koalas** and **Grey-headed Flying-foxes** within the **development area** during **clearing** and **construction**, the approval holder must:
 - a. ensure that a qualified **fauna spotter catcher** is present during all **clearing** and empowered to guide all **clearance** to ensure that **Koalas** and **Grey-headed Flying-foxes** have safely moved out of the **development area** of their own volition before **Koala habitat** and **Grey-headed Flying-fox habitat** is **cleared**; and,
 - b. install temporary **Koala exclusion fencing** around **construction** works. Temporary **Koala exclusion fencing** must be installed immediately after **clearing** and prior to the commencement of **construction**. Temporary **Koala exclusion fencing** must remain in place around any **construction** area until all **construction** activities within that fenced area are completed.
3. For the ongoing protection of the local **Koala** population at the proposed impact site, the approval holder must:
 - a. install and maintain, for the duration of the approval, **Koala awareness signage** in no less than four locations along the edge of the esplanade road that faces the **on-site open space area** at indicative locations shown by the red dots on Attachment B; and,
 - b. install traffic calming measures and install prominent signage to limit vehicle speeds to minimise the risk of injury or deaths of **Koalas** occurring on residential roads in the **development area**.
4. To compensate for the **clearing** and **functional loss** of 56.20 ha of **Koala habitat** and **Grey-headed Flying-fox habitat**, the approval holder must:
 - a. **Legally secure** at least 66 ha of land at the **Cherry Gully East Offset Area** and commence **management activities** prior to the **commencement of the action**;
 - b. within 20 **business days** of **legally securing** the **Cherry Gully East Offset Area**, provide the **Department** with written evidence demonstrating that the **Cherry Gully East Offset Area** has been **legally secured** (e.g. **legal security documentation**), and **shapefiles** of the **offset attributes**; and,
 - c. complete all **management activities** as described in the **Cherry Gully East Offset Area Management Plan** by 31 January 2045.

Note: Uses or activities at the offset site are not permitted if they are not compatible with the primary purpose of conservation.

5. During **Year 1**, the approval holder must complete baseline surveys of the entire **Cherry Gully East Offset Area** to determine the:
 - a. **vegetation condition attributes** for each **Regional Ecosystem**;
 - b. **extent of weed cover**; and,
 - c. seasonal **feral animal** abundance.

The baseline surveys must be undertaken by a **suitably qualified field ecologist** in accordance with a scientifically valid, robust, and repeatable methodology.

6. Within three months of completion of the baseline surveys required under Condition 5, the approval holder must engage a **suitably qualified field ecologist** to update the **Cherry Gully East Offset Area Management Plan** to include the following:
 - a. include the results of the baseline surveys required under Condition 5;
 - b. provide details of how the outcomes specified in Conditions 9 – 12 will be achieved; and,
 - c. specify a program of monitoring, and reporting progress against, performance and completion criteria in respect of achieving the ecological outcomes specified in Conditions 9 – 12.
7. The updated **Cherry Gully East Offset Area Management Plan** referred to in Condition 6 must be published on the **website** and remain published for the duration of the approval. The approval holder must implement the published updated **Cherry Gully East Offset Area Management Plan** for the duration of the approval, and must achieve the outcomes required under Conditions 9 – 12.
8. In accordance with the Offset Area Management Plan, the approval holder must publish each **Cherry Gully East Offset Area Management Plan Annual Report** on the **website** within **40 business days** following the end of the 12 month reporting period. The approval holder must keep each **Cherry Gully East Offset Area Management Plan Annual Report** published from the date it is first published for the duration of the approval.

Pest and Weed management

9. The approval holder must:
 - a. demonstrate, by the end of **Year 5**, that the abundance of **feral animals** at the **Cherry Gully East Offset Area** is reduced by 95% relative to the abundance of **feral animals** determined by the baseline surveys,
 - b. for the rest of the period of effect of the approval, ensure that the abundance of **feral animals** is less than 5% of the abundance of **feral animals** determined by the baseline surveys; and,
 - c. ensure that zero **Koala** injuries or mortalities occur as a result of the presence of **feral animals**.
10. The approval holder must demonstrate that the **extent of weed cover** at the **Cherry Gully East Offset Area** is:
 - a. by the end of **Year 5**, reduced by 80% relative to the **extent of weed cover** determined by the baseline surveys;
 - b. by the end of **Year 10**, reduced by 95% relative to the **extent of weed cover** determined by the baseline surveys; and,
 - c. for the remainder of the approval, no more than 5% of the **extent of weed cover** determined by the baseline surveys.

Stock Exclusion

11. For the protection of **Koala Habitat** and **Grey-headed Flying-fox habitat**, the approval holder must demonstrate by the end of **Year 1** that **fauna friendly stock exclusion fencing** has been installed around the entire perimeter of the **Cherry Gully East Offset Area**. The approval holder must ensure that the **fauna friendly stock exclusion fencing** is maintained and effective for its purpose for the duration of the approval, and ensure that zero stock incursions occur.

Habitat Quality Improvement

12. For the protection of the **Koala** and **Grey-headed Flying-fox** the approval holder must achieve the following outcomes at the **Cherry Gully East Offset Area** by 31 January 2045:
- a. Undertake ecological work to restore **vegetation condition attributes** to the **benchmark** for each **Regional Ecosystem** at the **Cherry Gully East Offset Area** specified in the **Cherry Gully East Offset Area Management Plan**; and,
 - b. Achieve the **rehabilitation success criteria** by **Year 10** as a result of planting, and maintaining trees of appropriate species, and once the **rehabilitation success criteria** are achieved, maintain for the duration of the approval.

The approval holder is responsible to achieve and maintain the outcomes specified under Condition 12 for the period of effect of the approval.

13. If, at any time during the period of effect of the approval, the **Minister** is not satisfied that any of the requirements or outcomes under Conditions 9 – 12 have been or are likely to be achieved or maintained, the **Minister** may request (in writing) further evidence from the approval holder as to how the requirements or outcomes of these Conditions will be achieved or maintained. If requested by the **Minister**, the approval holder must:
- a. provide a report to the **Department** that documents the cause of the potential or actual non-achievement of required outcomes, the corrective actions to be taken (including timeframes for reporting to the **Department** the success of those actions) and the contingency measures that will be implemented to prevent further occurrences;
 - b. revise the updated **Cherry Gully East Offset Area Management Plan**, applying the advice of a **suitably qualified field ecologist** and within a timeframe determined by the **Minister**, to include the corrective actions and contingency measures and a program of when and how the relevant contingency measures and corrective actions will be implemented;
 - c. submit the revised **Cherry Gully East Offset Area Management Plan** to the **Department** for the **Minister's** approval, within a timeframe determined by the **Minister**; and,
 - d. implement the approved revised **Cherry Gully East Offset Area Management Plan** as required by Condition 13.c.

Part B – Standard administrative conditions

Notification of date of commencement of the action

14. The approval holder must notify the **Department** in writing of the date of **commencement of the action** within ten **business days** after the date of **commencement of the action**.
15. If the **commencement of the action** does not occur within five years from the date of this approval, then the approval holder must not **commence the action** without the prior written agreement of the **Minister**.

Compliance records

16. The approval holder must maintain accurate and complete **compliance records**.
17. If the **Department** makes a request in writing, the approval holder must provide electronic copies of **compliance records** to the **Department** within the timeframe specified in the request.

Note: **Compliance records** may be subject to audit by the **Department** or an independent auditor in accordance with section 458 of the **EPBC Act**, and or used to verify compliance with the conditions. Summaries of the result of an audit may be published on the **Department's** website or through the general media.

Annual compliance reporting

18. The approval holder must prepare a **compliance report** for each 12 month period following the date of **commencement of the action**, or otherwise in accordance with an annual date that has been agreed to in writing by the **Minister**. The approval holder must:
 - a. publish each **compliance report** on the **website** within 60 **business days** following the relevant 12 month period;
 - b. notify the **Department** by email that a **compliance report** has been published on the **website** and provide the weblink for the **compliance report** within five **business days** of the date of publication;
 - c. keep all **compliance reports** publicly available on the **website** until this approval expires;
 - d. exclude or redact **sensitive ecological data** from **compliance reports** published on the **website**; and,
 - e. where any **sensitive ecological data** has been excluded from the version published, submit the full **compliance report** to the **Department** within five **business days** of publication.

Note: **Compliance reports** may be published on the **Department's** website.

Reporting non-compliance

19. The approval holder must notify the **Department** in writing of any: **incident**; non-compliance with the conditions; or non-compliance with the commitments made in **plans**. The notification must be given as soon as practicable, and no later than two **business days** after becoming aware of the **incident** or non-compliance. The notification must specify:
 - a. any condition which is or may be in breach;
 - b. a short description of the **incident** and/or non-compliance; and,
 - c. the location (including co-ordinates), date, and time of the **incident** and/or non-compliance. In the event the exact information cannot be provided, provide the best information available.
20. The approval holder must provide to the **Department** the details of any **incident** or non-compliance with the conditions or commitments made in **plans** as soon as practicable and no later than ten **business days** after becoming aware of the **incident** or non-compliance, specifying:
 - a. any corrective action or investigation which the approval holder has already taken or intends to take in the immediate future;
 - b. the potential impacts of the **incident** or non-compliance; and,
 - c. the method and timing of any remedial action that will be undertaken by the approval holder.

Independent audit

21. The approval holder must ensure that **independent audits** of compliance with the conditions are conducted as requested in writing by the **Minister**.
22. For each **independent audit**, the approval holder must:
 - a. provide the name and qualifications of the independent auditor and the draft audit criteria to the **Department**;
 - b. only commence the **independent audit** once the audit criteria have been approved in writing by the **Department**; and,
 - c. submit an audit report to the **Department** within the timeframe specified in the approved audit criteria.
23. The approval holder must publish the audit report on the **website** within ten **business days** of receiving the **Department's** approval of the audit report and keep the audit report published on the **website** until the end date of this approval.

Completion of the action

24. Within 30 days after the **completion of the action**, the approval holder must notify the **Department** in writing and provide **completion data**.

Part C - Definitions

In these conditions, except where contrary intention is expressed, the following definitions are used:

Benchmark means the quantitative value for the relevant BioCondition attribute specified for each **Regional Ecosystem** by the Queensland Herbarium, as described in *the BioCondition Benchmarks of Southeast Queensland (10/1/2019)* or a subsequent version approved by the Queensland Government.

Business day(s) means a day that is not a Saturday, a Sunday or a public holiday in the state or territory of the action.

Cherry Gully East Offset Area means the area located within the red dotted line on Attachment C. The **Cherry Gully East Offset Area** is located at Lot 1 on CSH1549, on Littles Road, Toogoolawah, Queensland.

Cherry Gully East Offset Area Management Plan means the *Cherry Gully East Offset Area Management Plan 2020*, prepared by One Environment and dated 26 June 2020 or the revised version approved by the **Minister**.

Cherry Gully East Offset Area Management Plan Annual Report means each annual report compiled by the Offset provider (to report on all **management activities**, surveys, results and outcomes within the previous 12-month operational period), as required in the **Cherry Gully East Offset Area Management Plan**.

Clear/clearing/clearance/cleared means the cutting down, felling, thinning, logging, removing, killing, destroying, poisoning, ringbarking, uprooting or burning of vegetation (but not including weeds – see the *Australian weeds strategy 2017 to 2027* for further guidance).

Commencement of the action means the first instance of any specified activity associated with the action including **clearing** and **construction**. **Commencement of the action** does not include minor physical disturbance necessary to:

- a. undertake pre-clearance surveys or monitoring programs;
- b. install signage and /or temporary fencing;
- c. protect environmental and property assets from fire, weeds and pests, including erection of temporary fencing, and use of existing surface access tracks; and
- d. install temporary site facilities for persons undertaking pre-commencement activities so long as these are located where they have no impact on the **protected matters**.

Completion data means an environmental report and spatial data clearly detailing how the conditions of this approval have been met. The **Department's** preferred spatial data format is **shapefile**. This includes but is not limited to information detailing:

- a. the date, location and extent of **protected matter** habitat **cleared** within the **development area**;
- b. the location, extent and quality of **protected matter** habitat within the **Cherry Gully Station East Offset Area**;
- c. **weed extent** within the **Cherry Gully Station East Offset area**;
- d. **feral animal** numbers within the **Cherry Gully Station East Offset area**; and,
- e. **Koala density** and **Grey-Headed Flying-fox** presence at the **Cherry Gully Station East Offset area**.

Completion of the action means the time at which all approval conditions (except Condition 24) have been fully met.

Compliance records means all documentation or other material in whatever form required to demonstrate compliance with the conditions of approval in the approval holder's possession or that are within the approval holder's power to obtain lawfully.

Compliance reports means written reports:

- i. providing accurate and complete details of compliance, **incidents**, and non-compliance with the conditions and the **plans**;
- ii. consistent with the **Department's Annual Compliance Report Guidelines (2014)**;
- iii. include a **shapefile** of any **clearance** of any **protected matters**, or their habitat, undertaken within the relevant 12 month period; and,
- iv. annexing a schedule of all **plans** prepared and in existence in relation to the conditions during the relevant 12 month period.

Construction means the erection of a building or structure that is or is to be fixed to the ground and wholly or partially fabricated on-site; the alteration, maintenance, repair or demolition of any building or structure; preliminary site preparation work which involves breaking of the ground (including pile driving); the laying of pipes and other prefabricated materials in the ground, and any associated excavation work; but excluding minor physical disturbance as specified in the definition of **Commencement of the action**.

Department means the Australian Government agency responsible for administering the **EPBC Act**.

Development area means the 56.20 ha area enclosed by the black line designated as 'Referral Area' on Attachment A comprising Lot 2 on RP196154, Lot 1 on RP196152, Lot 1 on RP196150, Lot 342 on S3173 at 357 Ripley Road, Ripley Queensland.

EPBC Act means the *Environment Protection and Biodiversity Conservation Act 1999* (Cth).

Extent of weed cover means the proportion (expressed as a percentage) of the total land area in which any square metre contains a non-native plant species known to restrict the movement of **Koala** and/or degrade the quality of **Koala habitat** and/or habitat for **Grey-headed Flying-fox**, or its ability to regenerate.

Fauna spotter catcher means a person licenced under the Queensland *Nature Conservation Act 1992* to detect, capture, care for, assess, and release wildlife disturbed by vegetation **clearance** activities who has at least three years' experience undertaking this work with **Koala**.

Fauna friendly stock exclusion fencing means fencing designed to prevent access by grazing animals to offset areas while providing for the free movement of **Koalas** and **Grey-headed Flying-foxes**.

Feral animals means non-native feral animals known to predate on the **Koala**.

Functional loss means the isolation of a small area of habitat due to the clearance of surrounding connective vegetation, which results in the loss of ecological function for a protected matter.

Grey-headed Flying-fox(es) means the Grey-Headed Flying-fox (*Pteropus poliocephalus*) listed as a threatened species under the **EPBC Act**.

Grey-Headed Flying-fox habitat means areas of vegetation that contain **Grey-headed Flying-fox** foraging trees, including winter and spring flowering species.

Incident means any event which has the potential to, or does, impact on one or more **protected matter(s)**.

Independent audit means an audit conducted by an independent and **suitably qualified person** as detailed in the *Environment Protection and Biodiversity Conservation Act 1999 Independent Audit and Audit Report Guidelines* (2019).

Koala(s) means the Koala (*Phascolarctos cinereus*) (combined populations of Qld, NSW and the ACT) listed as a threatened species under the **EPBC Act**.

Koala awareness signage means prominent, legible, clearly understood signage for the purposes of alerting drivers that **Koalas** may be in the vicinity.

Koala density means the number and/or utilisation and distribution of **Koalas** per hectare as determined in field surveys over the entire **Cherry Gully East Offset Area** undertaken by a **suitably qualified field ecologist** using a scientifically robust and repeatable methodology over a timeframe that serves as a sound basis for comparison.

Koala exclusion fencing means fencing which prevents the movement of **Koalas**. Suitable examples of **Koala exclusion fencing** design are provided in *Koala Sensitive Design Guideline: A guide to koala sensitive designed measures for planning and development activities, version 2.0* (Queensland Department of Environment and Science, 2020).

Koala food trees means a species of tree of genus *Angophora*, *Corymbia*, *Eucalyptus*, *Lophostemon* or *Melaleuca*, with a height of more than 4 metres or with a trunk circumference more than

31.5 centimetres at 1.3 metres above the ground, the leaves of which are known to be consumed by the **Koala**.

Koala habitat means any forest or woodland containing species that are known **Koala food trees**, or shrubland with emergent food trees (as defined in the **Koala referral guidelines**).

Koala referral guidelines means the **Department's EPBC Act referral guidelines for the vulnerable Koala (combined populations of Queensland, New South Wales and the Australian Capital Territory)**, Commonwealth of Australia, 2014.

Legally secure(d/ing) means to provide ongoing conservation protection on the title of the land, under an enduring protection mechanism, such as a voluntary declaration under the *Vegetation Management Act 1999* (Qld) or another enduring protection mechanism agreed to in writing by the **Department**.

Legal security documentation means any documentation associated with **legally securing** offset site(s), including (but not limited to) management plans. **Legal security documentation** must include (at a minimum) the following:

- a) Details of the **management activities** to be undertaken to achieve the outcomes prescribed under conditions 4 – 12; and,
- b) A commitment that **legal security** of the **Cherry Gully East Offset Area** and **management activities** to achieve and maintain the outcomes prescribed under conditions 4 – 12 will be in place for the duration of the impact.

Management activities means activities to be undertaken at the **Cherry Gully East Offset Area**, including (but not limited to):

- a. detailed baseline surveys to determine **extent of weed cover** and seasonal **feral animal** abundance;
- b. management of weeds and **feral animals**;
- c. installation of **fauna friendly stock exclusion fencing**;
- d. ecological work to restore the **Regional Ecosystems** at the **Cherry Gully East Offset Area**
- e. activities associated with planting new **Koala habitat** and **Grey-headed Flying-fox foraging habitat**; and,
- f. activities associated with seed collection and propagation of planting stock.

Minister means the Australian Government Minister administering the **EPBC Act** including any delegate thereof.

Offset attributes means an '.xls' file capturing relevant attributes of the offset area, including:

- a. **EPBC Act** reference number;
- b. physical address of the **Cherry Gully East Offset Area**;
- c. coordinates of the boundary points in decimal degrees;
- d. **protected matters** that the offset compensates for;
- e. any additional **EPBC Act** listed threatened species and communities that are benefiting from the offset; and,
- f. size of the **Cherry Gully East Offset Area** in hectares.

On-site open space area means the shaded light-green area located in the south-west corner of the **development area**, north of Montereia Road, as shown on Attachment B.

Plan(s) means any of the documents required to be prepared, approved by the **Minister**, and/or implemented by the approval holder and published on the **website** in accordance with these conditions (includes action management plans and/or strategies).

Protected matter(s) means a matter protected under a controlling provision in Part 3 of the **EPBC Act** for which this approval has effect.

Regional Ecosystem means a vegetation community in a bioregion that is consistently associated with a particular combination of geology, landform and soil as classified by the Queensland Government under the *Vegetation Management Act, 1999*.

Rehabilitation success criteria means to have successfully established a minimum of 150 **Koala food trees** per hectare, including a minimum of 100 **Grey-Headed Flying-fox foraging habitat** trees per hectare.

Sensitive ecological data means data as defined in the Australian Government Department of the Environment (2016) *Sensitive Ecological Data – Access and Management Policy V1.0*.

Shapefile(s) means location and attribute information of the action provided in an Esri shapefile format. **Shapefiles** must contain '.shp', '.shx', '.dbf' files and a '.prj' file that specifies the projection/geographic coordinate system used. **Shapefiles** must also include an '.xml' metadata file that describes the shapefile for discovery and identification purposes.

Suitably qualified field ecologist means a person who has professional qualifications and at least three years' work experience designing and implementing flora and fauna surveys and management plans for the **Koala** and/or the **Grey-headed Flying-fox** using relevant protocols, standards, methods and/or literature.

Vegetation condition attributes means attributes that indicate vegetation functions for biodiversity, as defined in the most recent officially released version of *Queensland's BioCondition Assessment Manual*.

Website means a set of related web pages located under a single domain name attributed to the approval holder and available to the public.

Year 1 means the period within 12 months from the date of this approval.

Year 2 means the period within two years from the date of this approval.

Year 5 means the period within five years from the date of this approval.

Year 10 means the period within ten years from the date of this approval.

DOCKLANDS VIC 3008

Dear s. 47F(1)

Decision on approval
Residential Development, 357 Ripley Road, Ripley, Queensland

I am writing to you in relation to your proposal to develop a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland.

I have considered the proposal in accordance with Part 9 of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) and have decided to grant an approval HB Doncaster Pty Ltd. The details of my decision are attached. The proposal must be undertaken in accordance with the conditions specified in the approval.

I would appreciate your assistance by informing me when you start the action and who will be the contact person responsible for the administration of the approval decision.

Please note, any plans required as conditions of approval will be regarded as public documents unless you provide sufficient justification to warrant commercial-in-confidence status.

You should also note that this EPBC Act approval does not affect obligations to comply with any other laws of the Commonwealth, state or territory that are applicable to the action. Neither does this approval confer any right, title or interest that may be required to access land or waters to take the action.

The Department has an active audit program for proposals that have been referred or approved under the EPBC Act. The audit program aims to ensure that proposals are implemented as planned and that there is a high degree of compliance with any associated conditions. Please note that your project may be selected for audit by the Department at any time and all related records and documents may be subject to scrutiny. Information about the Department's compliance monitoring and auditing program is enclosed.

I have also written to the following parties to advise them of this decision:

State authority

Queensland Department of Environment and
Science

If you have any questions about this decision, please contact the project manager, s. 22(1)(a)(ii) s. 22(1)(a)(ii) by email to s. 22(1)(a)(ii) @awe.gov.au, or telephone (s. 22(1)(a)(ii) and quote the EPBC reference number shown at the beginning of this letter.

Yours sincerely

Subject: RE: Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) Request for advice on new listings, advices and plans [SEC=OFFICIAL]

Hi Species Information and Policy Section,

The proposed decision for Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) is likely to be signed by the delegate soon.

I would be grateful if you could please advise on whether or not there are any new, revised or imminent conservation advices, recovery plans or threat abatement plans that may be relevant to this project.

I have reviewed the statutory documents report below, and can confirm the relevant statutory documents have been correctly identified for the listed threatened species and ecological communities.

The last check of SPRAT for new or revised conservation advices, recovery plans or threat abatement plans was done 23 September 2020.

Thanks

Subject: Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) Request for advice on new listings, advices and plans [SEC=OFFICIAL]

Hi ^{s. 22(1)(a)(ii)},

The proposed decision for Residential Development, 357 Ripley Road, Ripley, Qld (EPBC 2019/8539) is likely to be signed by the delegate soon.

The project is located at Ripley, Queensland. Could you please provide advice as to whether or not there are any new, revised or imminent conservation advices, recovery plans or threat abatement plans that may be relevant to this project?

I've included below a list of the species and ecological communities which are likely to be significantly impacted by the project and the CAs, RPs and TAPs that have been considered in the decision.

The last check of SPRAT for new or revised conservation advices, recovery plans or threat abatement plans was done today (22 September 2020).

Let me know if you need anything else and if possible can you please let me know by the end of the week (25 September 2020)? I apologise for the short notice.

Thanks,
^{s. 22(1)(a)}

Dear Mr Loveday

Decision on approval
Residential Development, 357 Ripley Road, Ripley, Queensland

I am writing to you in relation to the proposal by HB Doncaster Pty Ltd to develop a residential subdivision and associated infrastructure at 357 Ripley Road, Ripley, Queensland.

I have considered the proposal in accordance with Part 9 of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) and have decided to grant an approval HB Doncaster Pty Ltd. A notice of my decision is attached for your information.

If you have any questions about this decision, please contact the project manager, ^{s. 22(1)(a)(ii)} by email to [s. 22\(1\)\(a\)\(ii\)@awe.gov.au](mailto:s.22(1)(a)(ii)@awe.gov.au), or telephone **s. 22(1)(a)(ii)** and quote the EPBC reference number shown at the beginning of this letter.

Yours sincerely
s. 47F(1)

Kim Farrant
