

## Live Animal Import applications as at 26 June 2023

Month	Applications submitted*	Under assessment** at 26 June 2023	Completed at 26 June 2023	Withdrawn
March	862	145 (120 paused)	690	27
April	741	155 (125 paused)	576	10
May	836	635 (171 paused)	194	7
June up to 26th	840	799 (33 paused)	39	2

## Notes:

\*'Applications submitted' includes complete applications only (all fields completed on the application and fees paid) and therefore accepted in the system and able to begin assessment.

\*\*The total number of applications under assessment is presented in the table, and for completeness the number of those applications that are paused as at 26 June is also included. A paused application is still considered to be under assessment, though it is generally unable to progress because the department is undertaking a prescribed activity. Once completed, the application may be un-paused and continue through the assessment process to completion. An application may be paused during the assessment period for prescribed activities listed under s 42 of the *Biosecurity Regulation 2016*.
