Hi ^{s. 47F(1)}

Thanks for the list. I've checked the life histories of the animals, and only s. 47G(1)(a) is vendor bred, so you may keep that animal if you wish.

The others are too far removed from their properties of birth for us to allow them to remain on your EU PIC, and two of the animals are not lifetime traceable because of missing transfers in the database.

If you wish to keep these animals you will need to split your property into two separate PICs: one remains EU s. 47G(1)(a) and one becomes non-EU (new PIC number). Please contact your DPI office to arrange a new PIC. Once this is done you will need to transfer the non-EU animals to your new non-EU PIC in the database and provide us with a map or similar document which shows the new boundaries of your EU PIC.

Alternatively, you may prefer to sell the animals. Please advise me which option you intend to take.

If you have any questions, please call us on freecall number 1800 305 544.
