

List of all families covered by the Australian Natural Heritage Assessment Tool

These families are included in ANHAT analyses and reports as at December 2015.

The listed families cover:

- All vertebrates
 - ie mammals, birds, reptiles, frogs, bony fish and sharks (> 7,000 species)
- 248 families of vascular flora (> 22,800 species)
- A range of invertebrate groups including:
 - 293 insect families (> 11,250 species)
 - all land snails (> 2,200) species)
 - selected spider families (> 1,400 species)
 - selected crustacean families (> 6,000 species)
 - selected echinoderm families (> 1,200 species)
