

## ADI Application Guidance for Residual Disinsection

April 2023

The ADI Application has been updated. The main changes are found in the 'Update an Existing Aircraft' and 'Add a new Aircraft' pages. You will see minor changes to titles to better clarify the information required. In particular, the cabin and hold applicator fields where the name of the company who applied the treatment is required.

When adding a new aircraft or updating an existing aircraft, you must follow the data entry rules below. Not following these rules may invalidate the record and result in the aircraft being met on arrival to verify disinsection. More detail about the ADI can be found [here](#).

### Residual Data Entry Field Requirements:

<b>Aircraft Registration</b>	Full aircraft registration in alpha and numerical characters only (no dashes or spaces).	Example: <input checked="" type="checkbox"/> AA1234 <input checked="" type="checkbox"/> AA 1234 <input checked="" type="checkbox"/> AA-1234 <input checked="" type="checkbox"/> 234 <input checked="" type="checkbox"/> A1
<b>Aircraft Type</b>	Full aircraft manufacturer and model required.	Example: <input checked="" type="checkbox"/> Boeing 737-900 <input checked="" type="checkbox"/> 737 <input checked="" type="checkbox"/> B737
<b>Residual Expiry Dates</b>	The residual expiry date on the disinsection certificate.	
<b>Residual treatment airport</b>	Airport where the treatment was applied.	
<b>Cabin Applicator</b>	Company name of the approved applicator.	Example: <input checked="" type="checkbox"/> Treatment Company <input checked="" type="checkbox"/> Treatment Company & Individual's name <input checked="" type="checkbox"/> Individual's name <input checked="" type="checkbox"/> Yes <input checked="" type="checkbox"/> Permethrin
<b>Hold Applicator</b>	Company name of the approved applicator.	Example: <input checked="" type="checkbox"/> Treatment Company <input checked="" type="checkbox"/> Treatment Company <input checked="" type="checkbox"/> Individual's name <input checked="" type="checkbox"/> Yes <input checked="" type="checkbox"/> Permethrin

### Residual ADI Entry Example:

#### Update an Existing Aircraft

Aircraft Registration  ①

Airline ID

Aircraft Type  ②

Cabin Residual Expiry Date  ③

Cabin Residual Treatment Airport  ④

Cabin Residual Applicator (Company Name)  ⑤

Hold (cargo areas) Residual Expiry Date  ③

Hold (cargo areas) Residual Treatment Airport  ④

Hold (cargo areas) Residual Applicator (Company Name)  ⑥

Comment (50/500 characters)

The ADI entry matches the information on the Disinsection Certificate. (Note corresponding number references on ADI Entry and Disinsection certificate examples.)

#### Residual Disinsection Certificate

This is to certify that the aircraft named in this certificate has on this day been disinsected in accordance with the Australian Government Department of Agriculture, Fisheries and Forestry and the New Zealand Ministry for Primary Industries as per Section 3.3 of the World Health Organization disinsection methods and procedures.

**Aircraft and Disinsection Details**

Aircraft registration  ①      Aircraft series  ②

Date of Spray (dd/mm/yyyy)

Date of Expiry (dd/mm/yyyy)  ③

Airport where treatment applied  ④

**Cabin**

Name of active ingredient

**Treatment undertaken by:**

Signature

Full name (block letters)

Position       Company Name  ⑤

**Holds (all cargo areas in freighters)**

Name of active ingredient

**Treatment undertaken by (if same as above, write "As above"):**

Signature

Full name (block letters)

Position       Company Name  ⑥
