

BE A JUNIOR BIOSECURITY OFFICER

Biosecurity is how we protect our plants, animals, food and nature. Visit www.agriculture.gov.au/JBO to find out more.

WHERE DO BIOSECURITY THREATS COME FROM?

There are lots of exotic pests and diseases that we don't want in Australia. These pests and diseases come from other countries or from the sea. They can get into Australia in many ways.

Pathways to Australia

- On the bottom of ships or in water they release
- Inside planes
- Sea containers and cargo at seaports
- International travellers' luggage
- Parcels, letters and items sent from overseas
- Wind, water currents and animal migration
