

## List of Highly refined organic chemicals and substances

- Acetone
- Almond-based beverages
- Amino acids (other than those derived from neural material)
- Arabic gum
- Betaine
- Bromelain
- Cellulose, including wood cellulose
- Coconut water
- Creatine
- Dextrose
- Dyes
- Enzymes (other than enzymes derived from animals or microbial fermentation)
- Esters
- Fructose
- Gamma oryzanol
- Glucose
- Gluten
- Gum products
- Hazelnut-based beverages
- Instant coffee extracts
- Isolated soybean protein
- Isotopes
- Lye water
- Maize starch and maize starch powder
- Maltodextrin
- Maple syrup
- Molasses
- Monosodium glutamate
- Multigrain-based beverages
- Neem oil
- Oat-based beverages
- Organic acids
- Papain
- Paraffin
- Pectin
- Pine tar
- Plant alcohols
- Plant colours
- Plant essences
- Plant extracts
- Plant flavours
- Plant oils
- Plant waxes
- Plant derived lecithin
- Pure agar
- Resins
- Rutin
- Saline
- Shellac
- Soy milk
- Soybean protein isolate
- Squalene
- Starches
- Sugars
- Sulfur compounds
- Sweeteners
- Tannin
- Tomato powder
- Varnishes
- Vietnamese lacquer
- Vinegars
- Vitamins
- Wood flour
