

Attachment 1: Summary table for semen

Table 1: Example summary table for bovine, caprine, cervine and ovine semen

Example for semen donor filled in red

Donor ID Isolation/Residency details	Straw identification details			Dates of sampling for disease testing			
	Collection Date/s	Number of Straws	Straw Identification	Test and type Bluetongue PCR	Test and type EHD PCR	Test and type	Test and type
Donor name: DON 001122 Herd or stud book number: XXYY12345 Ear-tag/tattoo/brand/microchip number: EXCELL123 DOB: 23/03/2017 Breed: HOLSTEIN FRESIAN Date entered isolation: 30/02/2018 Date entered residence: 26/03/2018 Total straws: 66 Test results: All negative	16/04/2018 23/05/2018 28/05/2018	30 25 11	SS200 SS201 SS202	DD/MM/YYYY DD/MM/YYYY DD/MM/YYYY	DD/MM/YYYY DD/MM/YYYY DD/MM/YYYY		

The document must contain the signature, date, and stamp of the official government veterinarian on each page (with the stamp of the government veterinary administration). The date must conform to the DD/MM/YYYY format.

Please add columns or rows as necessary to ensure all disease test results for the relevant country and commodity is provided. Please use 'N/A' for fields that are not applicable.

Please note, using the incorrect date format in the table or not providing all required details considerably slows the department's assessment of documents which increases assessment time and associated fees.

Table 2: Template summary table for bovine, caprine, cervine and ovine semen

Donor ID Isolation/Residency details	Straw identification details			Dates of sampling for disease testing			
	Collection Date/s	Quantity of Straws	Straw Identification	Test and type	Test and type	Test and type	Test and type
Donor name: Herd or stud book number: Ear-tag/tattoo/brand/microchip number: DOB: Breed: Date entered isolation: Date entered residence: Total straws: Test results:
