

Organisation: Equine Dental Association of Australia

Name: Mark Burnell

The Equine Dental Association Australia (EDAA) is the oldest horse dentist association in Australia and has 35 fully accredited and fully insured members who provide, humane, routine, dental care to horses, ponies and donkeys.

The Equine Dental Association of Australia has read and discussed the Position Paper in relation to the Horse Disease Response Levy Review and confirms its support for maintaining the current Zero Based Levy and the current levy collection points as the most practical and most effective method of collection of levies across the horse industry.
