

Imported Baitfish Discrepancy Notification Form

AA site name:	State:
Address:	AA site number:

A Baitfish Discrepancy Notification Form is to be sent to the Department of Agriculture and Water Resources when discrepancies are found in the carton count, when product is damaged, when there are inconsistent seal numbers, broken seals or missing seals on the shipping container, or where the shipping container has been contaminated. Goods arriving at sites must be accompanied by a biosecurity control order.

The Department of Agriculture and Water Resources is to be notified immediately if any discrepancies are found.
